Creating Solutions for Schools

Tile Mural-Periodic Table

There are 1.6+ million schools in India. The top 100 thousand schools benefit from the innovation trending in the education space.

However, for the 1 million schools at the bottom of the pyramid, the quality of basic education remains a challenge. Lack of textbooks, parent & student apathy compound the problem.

To make an impact on learning outcomes we designed tiles having educational content that is relevant for all classes. These tiles, applied as a mural on a classroom wall, create a positive learning environment as well as keep the walls looking clean with minimal maintenance requirements.

As a part of our CSR initiative, this unique range of educational tiles has revamped quite a few schools in Delhi, UP and Rajasthan. The impact makes the effort worthwhile.

Impact on Learning Outcomes
