

About OBL

Orient Bell Limited (OBL) is amongst the largest manufacturers of Wall & Floor Tiles. It's roots in the tile industry can be traced as early as 1977.

OBL has always been a pioneer in the Industry with a focus on customer-centric innovation. It was the first to manufacture ultra-vitrified tiles. For OBL, new product design & development is a continuous process. As a result it has an extensive range of tiles with various finishes & textures. It has 4 patent-pending technologies: Forever Tiles, GermFree Tiles, Cool Tiles & Life Tiles.

OBL has a chain of signature showrooms to display this extensive range of tiles. It is privileged to be associated with premier architects and construction agencies of the country. It counts most leading developers as well as government & public sector institutions as its customers.

At OBL we believe in excellence. The ISO 9001:2015 accreditation for our quality control management systems reflects this quest for manufacturing products that meet international standards. In 2015 our Sikandarabad plant was awarded with prestigious ISI certification for its products.

As early as in May 2000, OBL was awarded the prestigious ISO 14001 certification by the internationally recognised BSI Management Systems, UK. Our manufacturing units are ISO 14001:2015 certified, the most complete and global expression for an environment friendly industrial company.

We believe in making great products in a safe, healthy and environment friendly way. We have been awarded OHSAS 18001 Certification for Health & Safety Standards. No waste water is ever discharged from our factory.

OBL won the "Certificate Of Merit" in 'National Energy Conservation Award' 2016 organised by Ministry of Power for saving Power and Fuel consumption.
